3. Provide information on the new contractor and how they plan to maintain and improve the road.

Virtual Attendance Note

A virtual attendance option is being offered primarily for neighbors who truly cannot attend in person. Because connectivity at the fire station has occasionally been inconsistent, the online connection may be intermittent or may drop during the meeting. In-person attendance is preferred whenever possible.

Nextiva access details are provided separately in the meeting notice and on the unofficial PID61 website.

This agenda is provided for community reference. For official district records, refer to Larimer County postings and approved meeting minutes.
